# VISI

To be the unique one and only “Network Marketing” company in the truest sense. If anyone ever mentions the phrase, people automatically think of Biogreen Science.

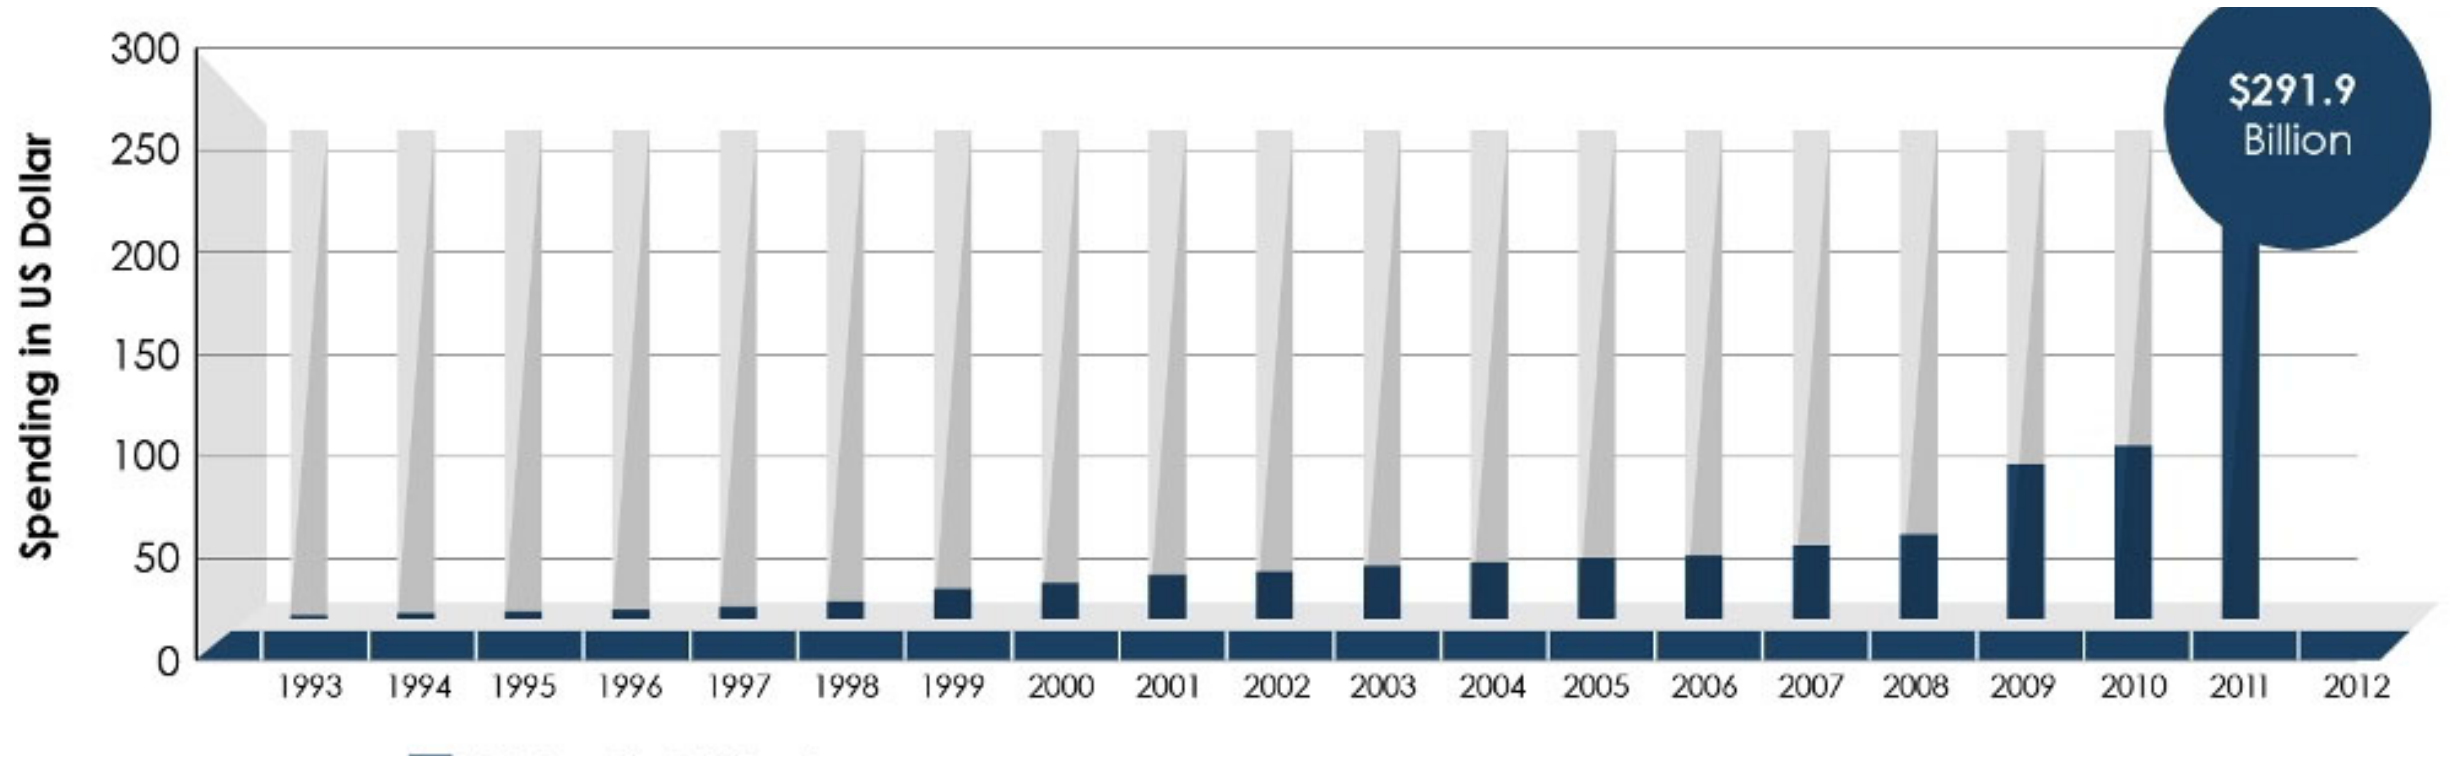

# MISI

Biogreen Science is committed to create a better future for millions and able to create a sustainable source of income with Integrity and Heart.

"Did You Know that **ANTI-AGING** Business worth **THOUSANDS OF TRILLION?**"

The Discovery of  
Revolutionized Technology  
Plant *Stem Cell* as Anti-Aging  
Solution

In 2003, scientists discovered a unique type of apple tree, secluded in a forest 3,797 meters above sea level in the Alps of Northern Switzerland. These apple trees possess unique and amazing properties. When the tree's bark or the skin of unplucked apples are scratched, they miraculously healed by themselves. Additionally, if the apples are plucked, they are able to stay fresh for many months, unlike ordinary apples.

These discoveries led **Mibelle Biochemistry** to the development of PhytoCellTec™ *Malus Domestica* which possess self-healing properties.

A cluster of faceted, purple crystals, possibly platinum, is shown against a black background. The crystals are sharp and angular, with many facets that catch the light, creating bright highlights and deep shadows. They are arranged in a fan-like pattern, radiating from a central point. The overall color is a deep, vibrant purple.
