PISUM SATIVUM **SPROUT EXTRACT**

Hair loss occurs in both men and women. This is caused by an imbalance in the hair growth cycle which is a combination of decreased hair growth (anagen) and increased hair loss (telogen).

Referring to this theory, the researchers created a solution to the problem of hair loss by utilizing organic pea shoots (*Pisum sativum*) to reduce hair loss by encouraging dermal papilla cells to reactivate hair growth activities.

DNA microarray analysis of plucked hair follicles shows that *Pisum sativum* sprout extract successfully activates signaling molecules in the dermal papillae that are needed to trigger new hair growth.

Effects ***Pisum Sativum*** **Sprout Extract** for Hair:

- Stimulates hair growth from the roots.
- Extends hair life cycle.
- Restores hair vitality.
- Increase the density of her hair in 3 months.

NASTURTIUM OFFICINALE **+ *TROPAEOLUM MAJUS* EXTRACT**

Dull and brittle hair gives a bad impression and makes us look like people who don't take care of ourselves.

The combination of Indian cress (*Nasturtium officinale*) and watercress (*Tropaeolum majus*), two super leaves that are known to have positive effects on hair care because rich in sulfur and mineral content, manages to create an effect that facilitates hair growth and strengthens hair from the roots by providing the elements needed to produce keratin, promotes hair growth, and stimulates KGF (a factor that influences keratinocyte growth).

Effects ***Nasturtium Officinale + Tropaeolum Majus*** extract for Hair:

- Refreshes the scalp.
- Stimulates the vitality of the hair roots.
- Strengthens hair from the roots.
- Prevent hair loss.
- Clean the scalp
- Regulates sebum on the scalp.
- Relieves irritation of the scalp.

ORYZA SATIVA BRAN EXTRACT

Made using the latest encapsulation technology to extract various antioxidant and bioactive compounds (γ -oryzanol, ferulic acid, phytic acid and unsaturated fatty acids) from rice bran (*Oryza sativa*).

Oryza Sativa bran extract prevents hair loss by inhibiting excess dihydrotestosterone (DHT) formation on the scalp and protecting hair follicles from oxidative stress.

Benefits *Oryza Sativa* **Bran Extract** for Hair:

- Prevents hair loss
- Promotes hair growth
- irritation free
- Alcohol free
